

Setting new standards...

Started with 38,700 spindles in 2002

Manufacturing 22MT/day

Customized combination of machines
from Japan, Germany, Italy & Switzerland

Producing yarn counts from 6s to 40s in card,
combed & compact in 100% cotton,
rayon, modal, tencel & cotton linen
blends & OE yarns from 5s to 20s count

SPINNING

Raw materials sources-100% cotton from USA, Australia,
South Africa, India. Linen from Belgium, modal & lyocell from Lenzing, Birla.

Slub attachments on ring frames for value added products.

OE Spinning-720 Rotors Head producing 2,400 MT/Year

Latest technology in auto leveling for carding from Trutzschler & Draw Frames

from Rieter for least CV %.

TEXTILE

Started in 2014 with full integration of yarn dyeing technology with world's best machineries of Fadis, Fongs, Dettin & Lawer

232 airjet & rapier machines from Toyota & Picanol, Warming & Sizing from Karl Mayer & Germany, auto leasing & auto Knotting from Staubli, Germany.

Yarn dyeing flexibility from 1kg to 1.1 ton with auto dosing & dispensing units.

3.2 Milion YDS/Month

Pre & post process technology from the very best European technology suppliers: Osthoff, Benninger, Bruckner, Monforts, Xetma & Lafar

COMPOSITIONS

100% cotton
Cotton/Nylon/Spandex
Micro Fiber Bamboo Silk
Viscose
Tencel
Poly Cotton
CVC
Cotton/Linen
Modal
Hemp
Silk
Viscose/Lurex
Cotton/ Indigo

Digital Printing technology with 32 heads.
16 colour Rotary printing from Reggiani Italy.

Flexible stretch control system on sizing.

24 frames high speed doobby in rapier.

100% waste water is treated via Biological Treatment plant and recycled to reuse & cost minimization.

WEAVES

Plain
Dobby
Twill/Herringbone
Combined Weaves
Satin/Sateen
Double cloth, Triple cloth, 4X4 twill
Madd
Seersucker
Oxford
Ribstop

FINISHES

Teflon

Dual performance finish
Bursh
Peach
Paper Touch

PRINTING

DIGITAL PRINTING

Reggiani, Italian Ink jet printing is the state of art machine suitable for Printing various Textiles from fashion to Apparel. This printer is suitable to print 100 % cotton, Viscose, Tencel, Modal, Linen and their blends. 32 kyocera print head provide high performance and reliability Maximum Print width – 1800 mm with 8 Special Reactive ink system machine can practically print all hues available in nature. Possible to print light to dark shade without any dithering effect.

ROTARY PRINTING

Maximum Printable width 185 cm

No. of color installed – 16

Speed range 4-90 mtr/ min

Multi repeat Printing head (from 640 mm to 1018 mm). Repeat adjustment is pneumatically and electronically controlled by selecting repeat on touch screen

Close bearing printing heads allows perfect driving of screen. Stepless adjustment of Printing height according to fabric thickness

Similarly stepless adjustment of Printing width

Individual screen drive

Uniflux linear magnetic system ensure evenness and uniformity across the width of the fabric resulting in no centre to side effect

All operation with touch screen interface

In Year 2014 Integrated to manufacturing specialized shirts for both formal & casual shirts, ladies dresses & tops.

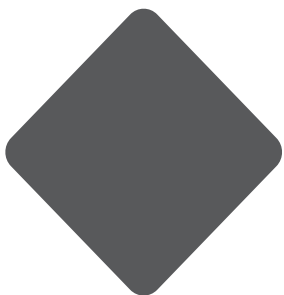

All kinds of men & women bottoms.

6 floors of 45,000 sqft each.

Auto CAD technology, auto pattern cutting machine, auto spreading facility with auto laser cutting machine from Gerber.

Juki sewing machine with auto-trimmer.

Tapping facility for wrinkle free shirt.

GARMENTS

Collar/ cuff forming & turning machine.

In-house embroidery machine of Barudan.

Specilized folding table for standup pack shirt.

Moisture control system & De-humidifying room to avoid mole & fungus.

Full compliance with Alliance, Accord, BSCI, SADEX, ISO 9001, ISO14001, ISO45001, GOATS, WRAP, SAQ GMP, CTPAT etc.

Production capacity for **woven tops**

1,000,000 pcs/ month.

32 production lines.

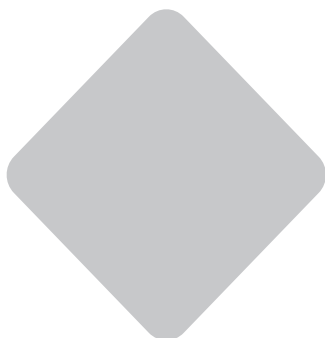

2,800 machines.

Production capacity for **bottoms**

4,00,000 pcs/ month.

10 production lines.

1,000 machines.

DESIGN STUDIO

IMAGINATION TO REALITY

SILVER LINE GROUP has a state of the art design studio only to ensure the highest quality work. We have our own in-house fashion designing team, trend forecasters, textile designers, graphic designers and fabric specialists covering global trends.
